

Stick-screwdriver for the Alu-holder-assembly

RU-CS-ST

For the assembly of squared clip and pivot aluminium holders.

Stick-screwdriver with automatic screw feeding unit ADS-MF4, complete with hose, screw unit with torque cut-off.

Usable for following screw sizes:

Diameter	2,4-4,0 mm
Length	10-35 mm
Screw head diameter	5-8 mm

The alu-holder needs to be positioned manually. To find the right position, you must use a moulding- tool or the alu-holder has a position- bed stop.
