

Semiautomatic Aluminium Holder Assembly Machine

RU-CS-STZ-P

for holder (19x19 mm)

Hand-operated alu-holder-fitting-machine with pneumatically blade feed motion and fourfold revolver bed stop for the depth-cut-off. Bed stop valve pneumatically moveable thru hand-valve against 2 six fold revolver bed stops. Feeding of the holders over a feeding-device, which will be matched to the holders. Standard square 19x19 mm, capacity 25 pieces (other holders on application) the alu-holder-fitting-machine for holders 19x19 mm has a weight from about 9 kg and must be hang up on a balancer. Besides the screw-machine RU-CS-STZ-P also the assorting and feeding device RU-SZ-C-D must be placed accurate. For this we the Ruchser company provide the additional- trolley RU-WAL-C. Alternative: ceiling-guiding- systems
